

Feeding for Special Needs by Carol Layton

This webinar will focus on feeding some of the special needs cases, including horses that are predisposed to tying up from genetic issues (RER, PSSM, EPSM) or non-genetic related issues, feeding to prevent and manage ulcers, and feeding older horses that are less able to extract nutrients and energy from forage.

There will be an in-depth look at the best approach for feeding insulin resistant/laminitic prone horses covering appropriate feeds and supplements.

Carol Layton B.Sc M.Ed of Balanced Equine is an independent equine nutritionist with a science background and a passion for the optimal feeding of horses based on scientific research. In 2008, Carol enrolled in equine nutrition courses provided by Dr Eleanor Kellon VMD and has been a tutor for students in NRC Plus since 2009. Carol is currently a lecturer in Equine Nutrition for the nationally recognised Certificate of Equine Hoof Care Practitioner course (ACEHP) in Australia. Carol is passionate about teaching and sharing her knowledge of equine nutrition to make it easier and simpler for horse owners. So far she has been a speaker at a number of conferences in Australia, the Functional Hoof conferences in 2011 and 2014 and more

All webinar times are listed in Mountain Time (Denver). Use the [converter](#) to find your local time. Visit the [webinar instruction page](#) for more info.
